

The High School

This is a small cliff 80m to the east of the Day Care, and facing west. A collection of very challenging routes, very different in character to others at Skaha. Expect to be schooled.

1. High School High

 5.13c

8 bolts. The right most line, climbing the left side of the arete. A couple of hard boulder problems with a sort-of rest between.

FA. Doug Orr, April 2012

2. Drop Out

 5.13d

7 bolts. The centre crack feature. Better holds than High School High but more sustained.

FA. Doug Orr, May 2012

3. Physics

5.14?

6 bolts. The left-hand line. An open project.

FA. Bolted by Doug Orr
